ONLINE PORTFOLIO

[Zaid_portfolio](#)

Designing with clarity.

Visualizing with purpose.

Architect with over three years of professional experience in architectural design, 3D visualization, and sustainable building development. Experienced in delivering residential and high-rise building projects from concept development through visualization while collaborating with multidisciplinary teams. Passionate about sustainable architecture, urban development, and advancing professional knowledge through graduate study.

01

ARCHITECTURAL DESIGN

Concept development, spatial planning, residential and high-rise design.

02

3D VISUALIZATION

Clear architectural storytelling through SketchUp, Lumion and 3ds Max.

03

TECHNICAL DRAWING

Accurate AutoCAD documentation and coordinated presentation packages.

04

SUSTAINABLE THINKING

Design decisions informed by context, efficiency and long-term value.

SOFTWARE TOOLKIT

AutoCAD

SketchUp

Lumion

3ds Max

Photoshop

Experience built through real projects and teamwork.

2023 - 2025

ARCHITECTURAL DESIGNER

Interiorubik Design

- Led the architectural design of more than 10 high-rise buildings with a focus on sustainability.
- Collaborated with engineers and contractors to support buildability and technical accuracy.
- Produced architectural drawings and visual presentations from concept through detailed design.

2022 - 2023

ARCHITECTURAL DESIGNER

MASGroup

- Developed architectural 3D models using SketchUp.
- Produced high-quality architectural visualizations with Lumion.
- Assisted in presentation preparation and coordinated design revisions with project architects.

EDUCATION

Bachelor of Architecture

Islamic University of Gaza

Architecture / design thinking / technical development / presentation

2015 - 2022

From concept lines to visual experience.

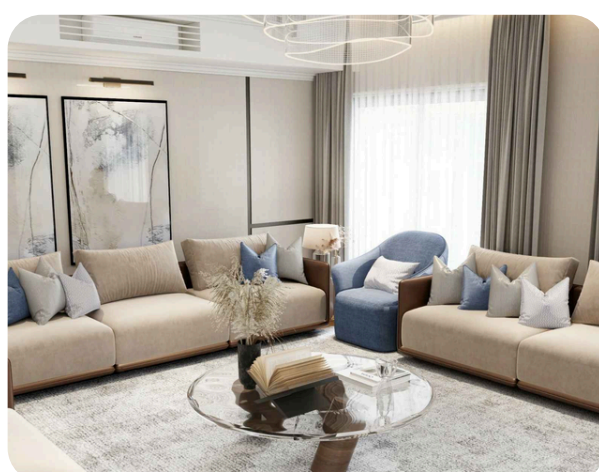

The online portfolio presents architectural thinking across design, visualization and technical development. This print edition highlights the main practice areas.

LANDSCAPE DESIGN

Movement / material / outdoor life

01

RESIDENTIAL ARCHITECTURE

Spatial planning / detail / atmosphere

02

HIGH-RISE DESIGN

Scale / coordination / sustainability

03

3D VISUALIZATION

Story / light / material / clarity

04

COMPLETE PROJECT GALLERIES ONLINE

Good architecture is not only about buildings.

01 CREATIVE DESIGN THINKING

Ideas shaped by context, function and a distinctive architectural identity.

02 STRONG VISUALIZATION

Clear images and presentations that make design intent easy to understand.

03 TEAM COLLABORATION

Constructive coordination with architects, engineers, contractors and clients.

04 ATTENTION TO DETAIL

Careful development of drawings, material logic and spatial relationships.

05 PROBLEM SOLVING

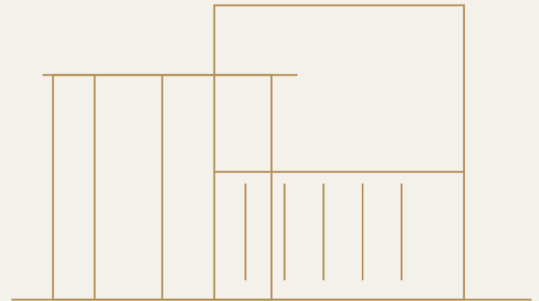

Practical responses to design constraints, revisions and technical challenges.

06 TIME MANAGEMENT

Organized production and dependable delivery across multiple project stages.
